DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
CS301: Advanced Operating Systems ? Fall Semester 2026
Course Syllabus, Exam Timetable & Lab Policies

Instructor: Prof. Jonathan Vance | Office: Turing Hall 402
Teaching Assistants: Sarah Lin, Marcus Brody
Lecture Hours: Monday & Wednesday, 10:00 AM - 11:30 AM (Room 101)

COURSE MILESTONES & EXAM SCHEDULE:
1. Midterm Theory Examination
  - Date: Monday, November 2, 2026
  - Time: 10:00 - 11:30 (Room 101)
  - Scope: Virtual Memory, Process Synchronization, Scheduling Algorithms.

2. Hands-on Kernel Lab Practical Exam [MANDATORY]
  - Date: Friday, November 13, 2026
  - Time: 14:00 - 17:00 (2:00 PM - 5:00 PM)
  - Location: Turing Hall Lab 3B
  - Weight: 25% of final course grade.
  - Eligibility & Requirements:
    * Minimum 75% lab attendance required to sit for the practical.
    * Must bring physical University ID card.
    * One single-sided 8.5x11 handwritten formula sheet permitted.
    * STRICT POLICY: No makeup labs permitted without Dean of Student Affairs medical waiver.

CS301: Advanced Operating Systems ? Deliverables & Deadlines

PROJECT MILESTONE & FINAL CODE SUBMISSION:
- Milestone Title: Final Multithreaded Kernel Module Project
- Due Date: Saturday, November 14, 2026
- Due Time: 23:59 (11:59 PM)
- Submission Platform: University Canvas Portal (Zip format with Makefile)
- Late Policy: Deductions of 10% per hour up to 6 hours. Zero credit after 6 hours.
- Required Actions:
  * Complete benchmark analysis against Linux 6.8 kernel baseline.
  * Submit 6-page technical report with concurrency race-condition analysis.
  * Tag git commit release v1.0-final.

UNCERTAINTIES & TENTATIVE ITEMS:
- Oral Defense Date: Tentatively scheduled for November 18-20, 2026. Exact slots to be assigned following portal submission.
